

Dear Worcester Accredited Installer

As part of our continuing commitment to product development, we are pleased to announce the introduction of our new Oil fired boiler range commencing with the **Greenstar Danesmoor Regular** boilers which feature Utility, Kitchen and External models and will be available late June, once the current boilers have been exhausted.

The range will be further enhanced with the **Greenstar II Heatslave Combi** range which will also be available in both kitchen and external models and these will be available late July, once the current boilers have been exhausted.

In October the **Greenstar Danesmoor System** range will be available in 3 models, utility, kitchen and external, replacing the current Camray System boilers.

All boilers in each range are available in 12/18, 18/25 and 25/32 outputs.

The new oil boiler range offers improved installation and servicing and further improvements in reliability and are designed to comply with the Energy related products Directive (ErP) legislation which will be introduced in the near future.

Please find below details of the new oil-fired boiler range.

Greenstar Danesmoor Regular boilers

Description	Part number	Replaces Model	Replaces Part No
Greenstar Danesmoor 12/18	7716100132	Greenstar Camray 12/18	7716100105
Greenstar Danesmoor 18/25	7716100133	Greenstar Camray 18/25	7716100106
Greenstar Danesmoor 25/32	7716100134	Greenstar Camray 25/32	7716100107
Greenstar Danesmoor Utility 12/18	7716100141	Greenstar Camray Utility 12/18	7716100108
Greenstar Danesmoor Utility 18/25	7716100142	Greenstar Camray Utility 18/25	7716100109
Greenstar Danesmoor Utility 25/32	7716100143	Greenstar Camray Utility 25/32	7716100110
