

Technical Bulletin

Product Information: Bosch Easy Control

Compatibility of Bosch Easy with 8000 range of domestic boilers, applying to both wired & wireless controls:

With the introduction of the 8000 range of domestic boilers, there has been an upgrade to the Bosch Easy to enable the unit to work with these appliances.

To identify if the Easy will work with the 8000 range of boilers a check needs to be made on the FD code of the Easy control unit.

This can be done by the two ways listed below:-

- Check to see the FD on the side of packaging of the Easy box as shown in *Fig. 1*
- Check the FD code on the actual back of the Easy Control as shown in *Fig. 2*

In order for the Easy unit to be compatible with the 8000 range, the FD number must be 856 or higher.

A) Requires production batch FD856 or higher (>01.08.2018)
